- You will see this screen or one similar to it depending on if you're using mac, pc or a different browser. It is safe to use, you just need to add it as an exception.

The screenshot shows a Firefox browser window with a single tab titled "Untrusted Connection". The address bar displays the URL "https://vesper.ph.utexas.edu/fmi/webd". The main content area features a yellow warning box with a shield icon containing a person and a document. The text inside the box reads: "This Connection is Untrusted", "You have asked Firefox to connect securely to vesper.ph.utexas.edu, but we can't confirm that your connection is secure.", "Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.", "What Should I Do?", "If you usually connect to this site without problems, this error could mean that someone is trying to impersonate the site, and you shouldn't continue.", and a button labeled "Get me out of here!". Below the button are two expandable sections: "Technical Details" and "I Understand the Risks", with the latter highlighted by a red rectangular border.

This Connection is Untrusted

You have asked Firefox to connect securely to **vesper.ph.utexas.edu**, but we can't confirm that your connection is secure.

Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.

What Should I Do?

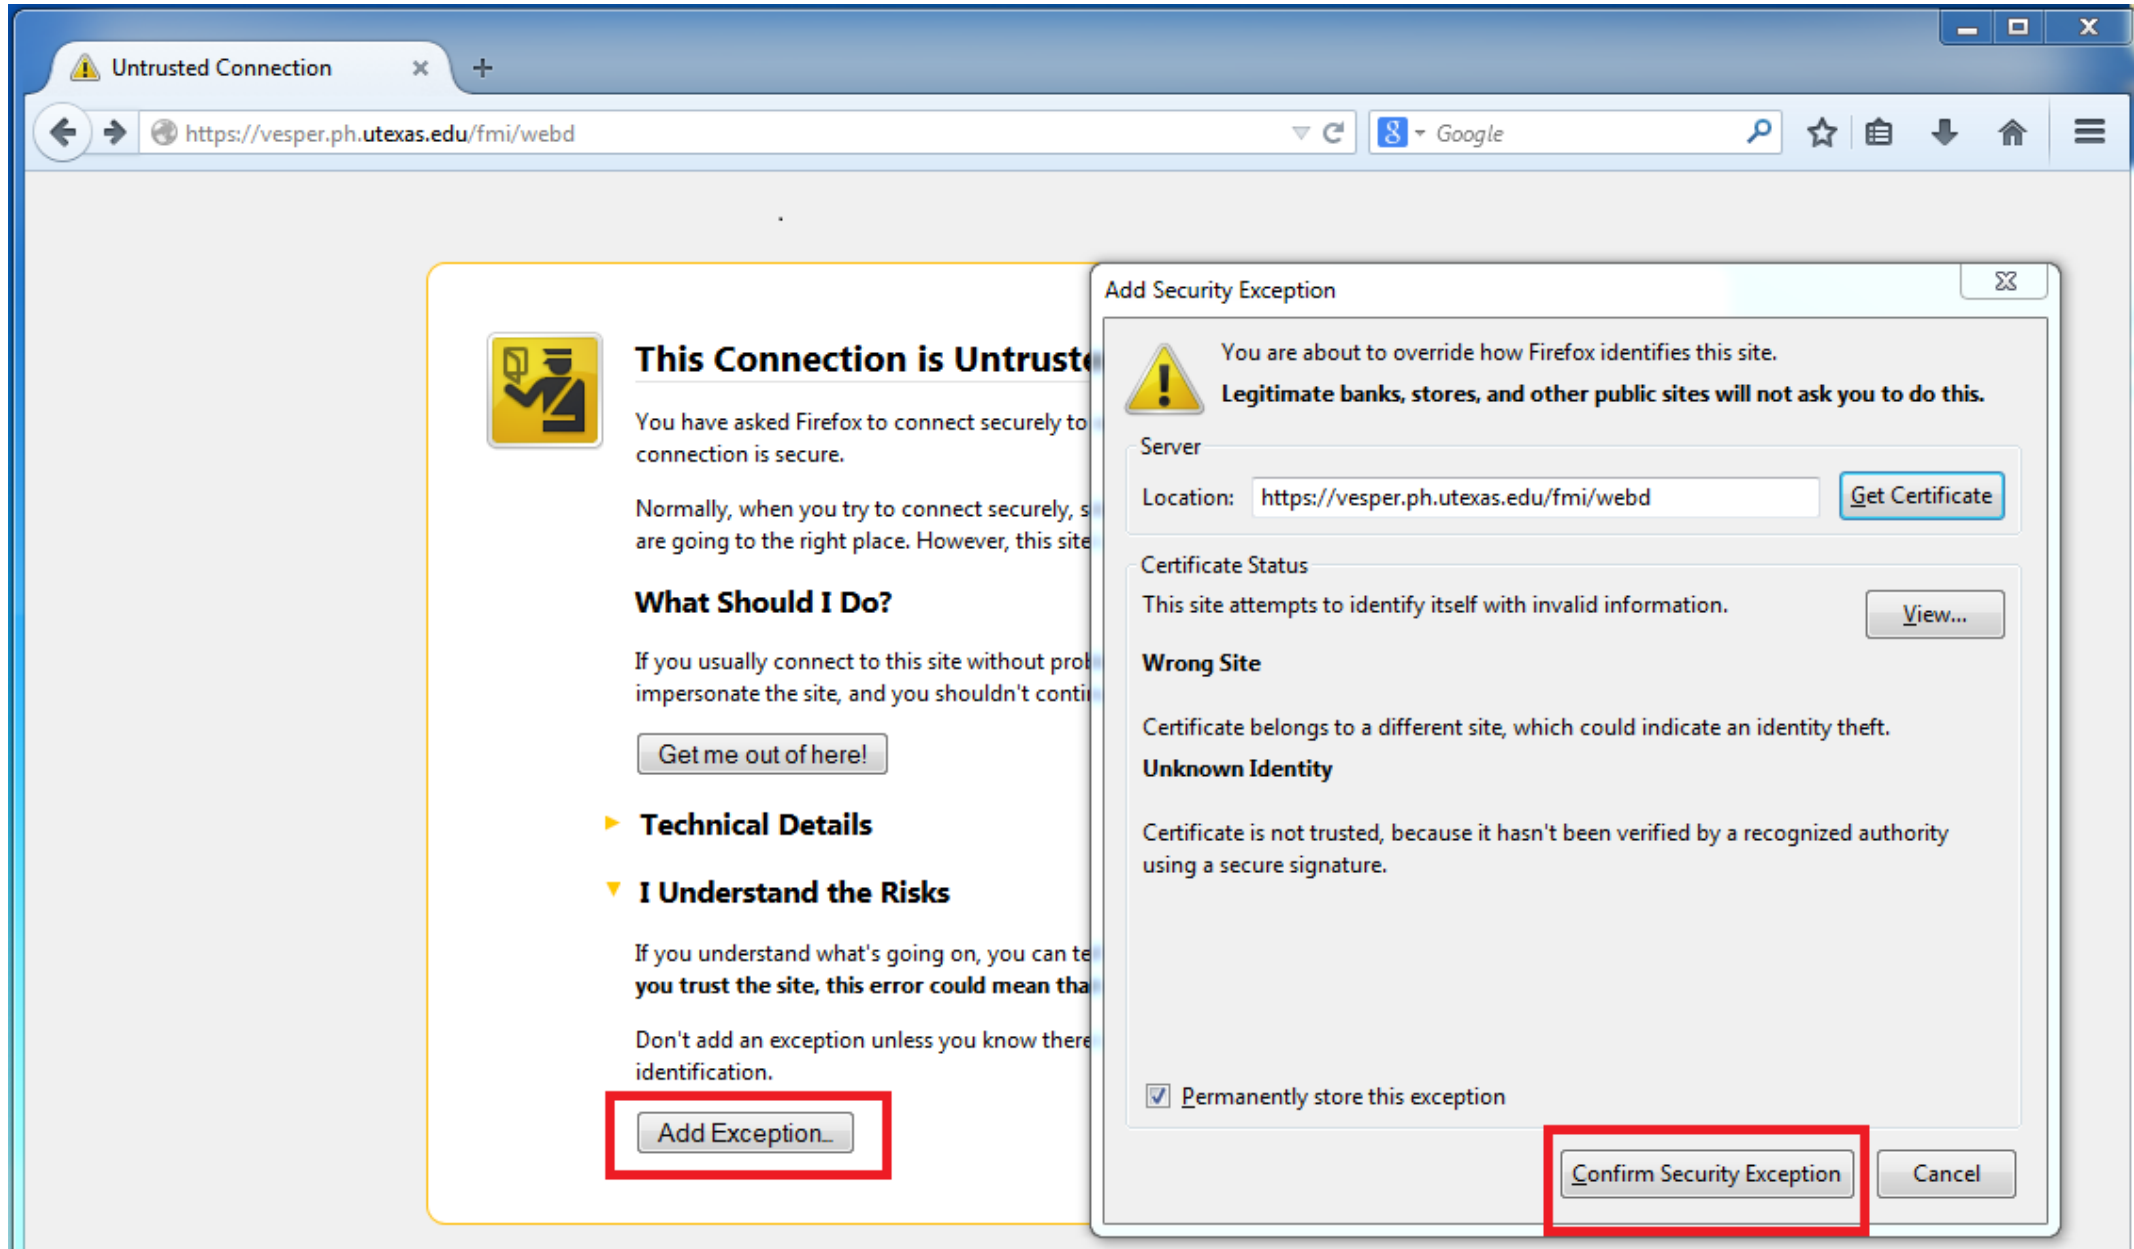

If you usually connect to this site without problems, this error could mean that someone is trying to impersonate the site, and you shouldn't continue.

- In order to add the exception, click “add exception” and then “confirm security exception”.

- Then you will click on “pro card orders” and enter your group login and password which you can get from your respective Professor.

The screenshot shows a web browser window with the FileMaker WebDirect interface. The browser's address bar displays the URL `https://vesper.ph.utexas.edu/fmi/webd#`. The page title is "FileMaker WebDirect". On the left side, there is a "Select a database" section with a button labeled "Pro Card Orders" highlighted by a red rectangle. Below this button is a "Refresh List" button. In the center of the screen, a "Login" dialog box is open. The dialog box has a black header with the word "Login" in white. Below the header, it says "Open database 'Pro_Card_Orders' with:". There are two radio button options: "Guest Account" (which is unselected) and "Account Name and Password" (which is selected). Below these options are two input fields: "Account Name:" and "Password:". At the bottom of the dialog box, there are two buttons: "Cancel" and "OK".

- Once connected, **make sure you click new record.** After that it should be a blank record that you will fill out with your information for your order.
- Remember to fill out as much as you can.
- To save it, make sure you click outside of any text box (this saves that box) and you when everything is finished you should log out at the top right of the page (as seen below).
- **There is no need to print it or send a copy to Olga.**
