

Introduction to CNLD printers  
The CNLD printers are located in Room 14.216.

There are two printers

The Black-White printer  
IP address: 172.17.74.26  
HP LaserJet P4515 Printer

The Color printer  
IP address: 172.17.74.25  
HP Color LaserJet CP4525 Printer  
[Download Page](#)

Technical support:

You can add the printers to your computer through the above IP addresses

For a mac go to system preferences->printers->add a printer(+)-> click on the IP tab and use the given IP address.

For a Windows computer click on the Start menu->Control panel->Hardware and sound -> Devices and Printers-> add a printer. Then you will need to add a network printer. If it doesn't find the printer then you will have to manually enter the IP address above after clicking "The printer I want isn't listed"

Both the Mac and Windows steps may be different on your specific Operating system. Generally speaking it will find the correct driver information but if that isn't the case a manual download for the drivers are posted above.

If you need help on the steps to add a printer, google for the solution or talk to Nathan Plummer for hands-on help, [IT@chaos.utexas.edu](mailto:IT@chaos.utexas.edu)

Policies to use the Prints:

The printers are free for academic use only. You need to pay for personal use.

Two-side printing is encouraged to save paper.

Use the color printer only when you print colorful pages. As default use the black-white printer for common printing
